

**Bigger better bolder than ever!** Thanks to our fantastic clients Tentnology has had 'intents' success in many areas. 'Tentsational' events, ideas and opportunities to share with you in our third newsletter.

## In case of emergency ...call 1 800 663 8858

Not all applications for Tentnology tents are glamorous or fun. The same technology that makes our tents so fast and easy to put up yet safe and sound are what makes them the perfect relief shelter. *Put to the test* – Tentnology supplied over 300 winterized tents for housing in a devastated earthquake zone. There were only three business days to deliver and once on the ground hundreds of soldiers put up 80 Marquees an hour.

### Rock on: Festival Con Dios

21-city Rock Tour seen by over 100,000 people featuring music, games and extreme athletes...

"While designing our portable amphitheater, we quickly settled on the Marquee line of tent structures from Tentnology. They

fit our requirements for quick setup and teardown, minimal anchoring and size capabilities. We also were pleased with the opportunity to choose from a variety of colors. Tentnology was able to provide our tents with the exact color options we had chosen. For superior service and outstanding technical and sales support, I would recommend Tentnology for anyone who is interested in a top of the line Marquee tent product."

**Won:** 2000 Special Event Magazine Gala Award for Best Tent Installation for the Lexus Millennium Job – see issue 2 of *the tentnologist*. This is the second time Tentnology has won this coveted international award!

**Awarded:** Tentnology is to be the Official Supplier to the North American Aboriginal Games – Winnipeg, 2002.

**Condolences and congratulations:** to Rob Amell at Mar-Nor Party Rentals in New York. We are proud of Rob for being able set up Tentnology Marquees in Battery Park to support relief efforts in New York.

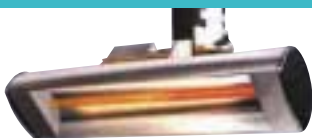

## Discovery at Discovery!

70 million viewers watch the Discovery Channels Christopher Lowell Show. The show features home décor and improvements. We were invited to demonstrate not only how fast and easy the 20'x20' Marquee is to set up but how fabulous it looks in any backyard. Christopher liked the tent so much he bought it as a crew lunch tent...who knew?

## Tentnologist's Corner...

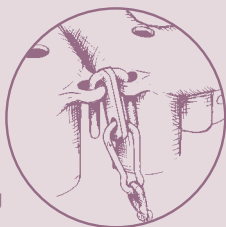

### Tender render

The latest Tentnology technology and the talents of our design team bring you virtual reality!

### Fred's invention of the month

The two-tent prong, or double-tent hook, or the 'thingy' that you place each prong into the hole in the casting of both tents – joins Marquees and maintains a small space between them avoiding damage to the fabric. Brilliant!

### Gery's design corner

The solid Mega door – slick, sleek and chic!
