

# tentnology®

**Tentnology® has done it again!**

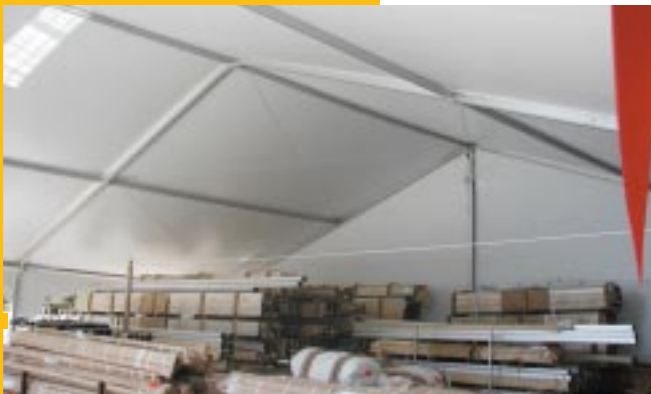

Tentnology®, world renowned for fabric structure innovation, has improved on perfection. TechnoSpan's TrueBeam® is engineered for pre-tension, with the highest strength-to-weight ratio in the industry for a water-tight, picture-perfect structure everytime.

simply **brilliant!**

## FEATURES:

- Expandable, contractible, 50' [15 m], 40' [12 m], 22' [6.7 m] wide x 20' [6 m] bays
- Multi-use *clear span space*
- Engineered to 90 mph [40 m/s] IBC Peak Gust Speed, 5 year MRI
- Tested for extreme weather
- *Perfect fit* precision parts
- Computer designed with Finite Element Analysis software
- Variety of accessories and options available
- 20' [6m] roof catenary mates with famous Tentnology® original Marquees for *infinite variety and space*

**Precise** – Designed by mechanical and structural engineers for fast and safe installation

**Fast fabric installation** – Robust 0.51" [13 mm] kedder with generous 8" [203 mm] flared feed for effortless fabric installation

**Durable** – Strong, tough and ready to handle any tenting challenge

**Labour-saving features:**

- **Quick link** hardware beams bayonet and snap-lock for one-man assembly
- Snap hooks on all attachments for speed and safety
- Power drill tensions wall
- Trucker load-binders tension roof and gable fast
- Techno Span features Tentnology® exclusive **equalizer fabric tensioning**. Proprietary system ensures fool-proof pre-stressing for picture-perfect structures, every time
- Gable is kedder-secured to beam and column, eliminating unsightly fabric flaps

**New and improved!**

- Tentnology® **TrueBeams**® are engineered to give you optimum performance with the highest strength-to-weight ratio in the industry
- Beam joints are LEAK-FREE, water tight
- Anodized and tempered high strength aircraft aluminum frames are sleek, light-weight, tough and durable
- Silence in high wind - **pretensioned fabric** roof, wall and beam
- Kedder purlins for sliding walls

Riggers and installers the world over told us what they wanted in a modular fabric structure. Thirty-five years of engineering experience welded those ideas to precision, quality and speed. When you buy TechnoSpan, you get **super tentnology!**

The Quality System to which Tentnology products are produced is registered to the ISO 9002:1994 Quality Assurance Standard. ISO is the governing body for internationally recognized quality assurance standards.
